

Energy Savings in Urban Quarters
through Rehabilitation and
New Ways of Energy Supply

Invitation

Dear Sir or Madam,

How can integrated and energy efficient urban development be successful? How can Baukultur and energetic rehabilitation be combined? What innovative financing instruments are there in this sector? How can the citizens actively be integrated into these processes?

The EnSURE project partners from different European countries have dealt with these and further questions intensively within the last three years.

In the context of the EnSURE final conference the results of the EnSURE project are presented in subject lectures and discussion rounds and will be further discussed with experts from the economic, research and public sector.

We would like to cordially invite you.

**Final conference
of the European project EnSURE:
March 21st, 2013, 9:30 am - 5:30 pm
at the Ludwigsburg Palace**

We would be pleased to welcome you to the final conference.

This project is implemented through the CENTRAL EUROPE Programme co-financed by the ERDF

**EUROPEAN UNION
EUROPEAN REGIONAL
DEVELOPMENT FUND**

EnSURE > Agenda

Thursday, 21st March 2013

09:30 Welcome and Registration
